

# D.I.Y.

## *Do It Yourself*

### **Homemade Fabric Softener**

2 cups of your favorite scented conditioner

3 cups of white vinegar

6 cups of water hot

A container to mix the ingredients and hold the softener in

Mix all ingredients together. You can use a pitcher to mix them all together and then just pour it into an empty container.

It takes a minute of stirring, but do it until no more conditioner clumps. Don't shake it.

Use 1/4 cup per load and it works great!
