DEADWOOD NEIGHBORHOOD WATCH REPORT – April 2014

There were two incidents reported in March, 2014:

On Wednesday, 3-5-14, West Fork Rd. there was an attempted robbery by three persons, two males and a female. A neighbor, who witnessed the robbery in progress, called the caretaker, for the property. The caretaker, a Deadwood resident, came and held the robbers at gunpoint until the Sheriff's deputies arrived. One man and the woman were arrested, but the other male robber escaped. Shortly after the robbery, a source in Deadwood identified where the goods may have been taken earlier. The deputies went to Greenhill, and were able to confiscate a variety of stolen property. Apparently two stolen vehicles were returned to the West Fork property owner.

Three photos of the captured male and female robbers, and the escaped robber were posted on the Deadwood Market Bulletin Board but were removed. New photos will be posted.

On 3-23-14, Sunday, ~ 3 p.m. Upper Deadwood Creek Road, a new resident and apparent property owner was shooting rounds from his AK47 across Deadwood Creek Road. It is illegal to shoot weapons across a county road for the obvious reasons.

Please report incident(s) to Maryanne (3099) or Jesse/Elaine (3049).

DNW member meeting will be April 10, at 6:30 p.m. at the Deadwood Community Center.

Van letter followup

I wrote my letter last issue without much consideration for the larger Deadwood community. In it, I should have clearly mentioned that I am sorry for any problems and concerns about my van being on the side of the road in Deadwood in January. It was not my intention to have it there and I was working on getting it out of there as well as I could.

Deadwood is an amazing place with great people. I meant no disrespect to anyone in Deadwood in my last letter. I apologize for any disturbance that I and my van created. I wish the best to everyone in Deadwood.

Respectfully, Michael C Moore

Useful to Know

Paintbrush

A dry paintbrush (with bristles at least 3 inches long) is great for both the surface and grooves of your collectibles, or computer keyboards. Dust framed photos with a pastry brush, which is softer than a paintbrush and easier to fit into corners and places difficult to reach.

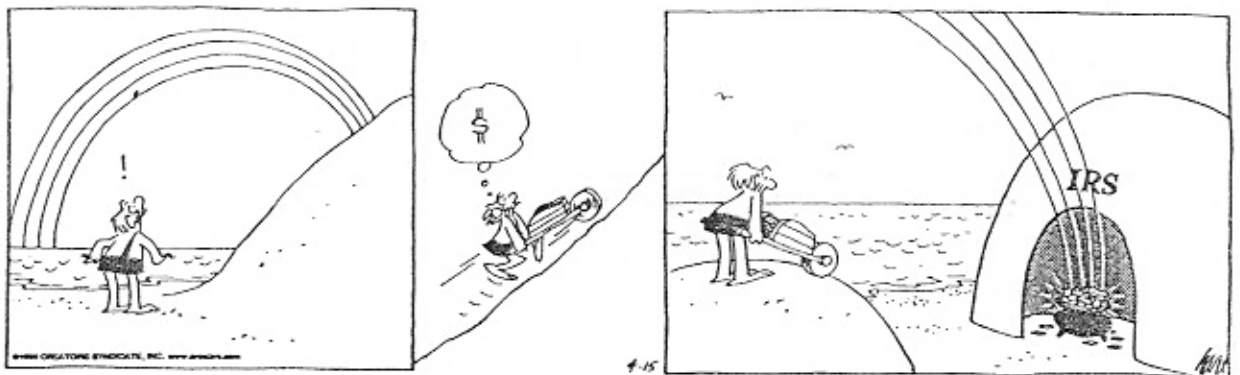

Submitted by Ron Bangert

NEW MICROLOAN PROGRAM ANNOUNCEMENT

A small group of Deadwood residents is interested in starting a microloan program to promote sustainable growth of our local economy by investing in people with purpose. To begin, we are looking for persons who are interested in making donations, which will serve as startup money. For further information, contact Keith Strom (964-3502) or Mel Gurtov (964-3223).

B.C.

I snapped some pictures of some waterfalls and creeks that appear when it rains. We really live in a beautiful place. I hope you enjoy them. Karl

Gossip – A Test (author unknown)

In ancient Greece, Socrates was reputed to hold knowledge in high esteem. One day, an acquaintance met the great philosopher and said, "Do you know what I just heard about your friend?" "Hold on a minute", Socrates replied. "Before telling me anything, I'd like you to pass a little test. It's called the Triple Filter Test."

"Triple filter?"

"That's right", Socrates continued. "Before you talk to me about my friend, it might be a good idea to take a moment and filter what you're going to say. That's why I call it the triple filter test. The first filter is Truth. Have you made absolutely sure that what you are about to tell me is true?"

"No," the man said, "Actually I just heard about it and..."

"All right", said Socrates. "So you don't really know if it's true or not. Now let's try the second filter, the filter of Goodness. Is what you are about to tell me about my friend something good?"

"No, on the contrary."

"So", Socrates continued, "you want to tell me something bad about him, but you're not certain it's true. You may still pass the test though, because there's one filter left: The filter of Usefulness. Is what you want to tell me about my friend going to be useful to me?"

"No, not really."

"Well", concluded Socrates, "if what you want to tell me is neither true nor good, nor even useful, why say it to me at all?"

Free to good homes!

I still have kombucha "babies" to give away!

Why drink Kombucha?

It's an immune system builder
a natural detoxifier, rich in B vitamins,
probiotic bacteria and digestive enzymes,
metabolism booster,
relieves arthritis and joint pain.

Kombucha is expensive to buy, but inexpensive
and easy to make at home.

■ **What is the chemical composition of our air?** The lower layers of the atmosphere form a thin enveloping layer of gases of which 78 percent is nitrogen, 21 percent is oxygen, and the remaining 1 percent includes trace gases. Water vapor (an invisible gas) and water droplets (cloud, fog, or rain) or ice particles (frozen water droplets), and the gas carbon dioxide are present in generally small quantities but are important.

■ **What are clouds?** Clouds are accumulations of tiny water droplets in the lower atmosphere. They are of different shapes and even colors. Some are high in the sky. Others so low that they almost touch the ground. Some days there are no clouds. Where did they go? Clouds look quite substantial as we see them from the ground but they are composed of loosely spaced water droplets and are actually not very solid at all. They form when the composition and movement of an air mass creates the right conditions.

■ **When do clouds form?** Clouds form when moist air cools. Moist air is air that contains water vapor (an invisible gas). In nature, air cools as it rises away from the ground; it also cools when it mixes with a colder air mass. At a certain cooler temperature (the "dew point") which depends upon the amount of water vapor in the air, the water vapor condenses into tiny, visible water droplets. We see these tiny droplets as clouds. If they are very close to the ground we see them as fog. These droplets are not big enough to fall as rain.

■ **Are there different kinds of clouds?** Yes. The highest clouds are typically about 17,000 to 50,000 feet above the ground. These are the cirrus clouds which are composed of ice crystals and appear as white, silky filaments, patches or bands. Clouds that form beneath cirrus clouds include the stratus or flat, layered clouds. Nimbus clouds are also lower than cirrus; they are dark, rain clouds. The clouds that form closest to the ground are cumulus or heaped clouds which have a flat base. These clouds too can provide rain.

I bought a bit of baking powder and baked a batch of biscuits. I brought a big basket of biscuits back to the bakery and baked a basket of big biscuits. Then I took the big basket of biscuits and the basket of big biscuits and mixed the big biscuits with the basket of biscuits that was next to the big basket and put a bunch of biscuits from the basket into a biscuit mixer and brought the basket of biscuits and the box of mixed biscuits and the biscuit mixer to the bakery and opened a tin of sardines.

Said to be a diction test for would-be radio announcers: To be read clearly, without mistakes, in less than 20 seconds (from Coronet Magazine, August 1948).

The Adventures of Me and My Shadow By: Linda Miller

Our adventures are mostly mine now because Shadow only wants to go with me once or twice a week. He was with me one night when we saw a very pregnant cow elk on the road. I stopped as she crossed the road and climbed up to a drive way, then stopped to turn around and look at us. I rolled down my window and talked to her while waiting to make sure no other elk were following behind her. Shadow never said a word until we started going again. That is when he finally started barking. She was huge, and looked as if she was ready to give birth. I think that she was going off to have her baby.

Thank you to my customers for being patient with me during the inclement weather. For those of you that get your papers in bags, if you would like to recycle the bags for me to reuse, please place them in your paper box for me to pick up during Sunday delivery. If you don't have a box you could bag them and leave them in the delivery area. You may have to put a rock on top of them to weigh them down. I appreciate any recycled bags for reuse. If you would like to request your papers be delivered in a plastic delivery bag, please call Linda at 541-268-4355 Thank you!

Aging Well: *Prevention, Understanding and Coping*

Peace Harbor Home Health and Hospice Community Program

April 10th - Strategies for Self-Care: Balance Your Body Naturally

- Use simple tools to restore your body's natural ability to recover from simple injuries
- Speakers will share their personal experiences with massage and self-care
- Manage chronic discomfort
- Discuss research behind the benefits of manual therapies like massage
- Learn exercises to enhance balance and restore energy

Instructor: Marcia York, LMT ACSM, massage therapist and educator, certified American College of Sports Medicine Health and Fitness Instructor and yoga teacher

May 8th - Joint Care with Dr. Tobin Hanson

- Discuss nutrition and supplements for joints
- Increase rehabilitation potential after a broken hip
- Learn back care and posture as it relates to aging
- Discuss how to care for joints to preserve mobility
- Use preventative measures to keep joints healthy, including exercise
- Plan osteoarthritic prevention and treatment
- Avoid hip and knee replacement surgery
- Receive information about arthritis and osteoporosis

June 12th - Completing Advanced Directives and Physician Orders for Life-Sustaining Treatment Forms

The importance of advanced care planning cannot be emphasized enough in the health care community. This includes completing an Advanced Directive for Health Care and a Physician Orders for Life Sustaining Treatment (POLST) form, if appropriate. We will review contents of both forms and provide instructions for how to complete them.

Instructor: Donna Becker, RBSW

Second Thursdays of spring term
9:00 a.m. - 10:00 a.m., Room 103

Deadwood Creek Community
Center's
Live Music, Dinner, Dance
"Third Saturday"
April 19, 2014
with
Clown Dancer

Dinner for Sale Starts 6:30 * Music Starts 7:30

*Sliding scale donation for the band
*4.3 miles up Deadwood Creek Rd.
Off Hwy 36
*call 541-964-5031 for more info

On Saturday, April 19, 2014, Deadwood's ongoing "Third Saturday" live music, dinner, and dance series welcomes back Clown Dancer. Brian and Anya's band Clown Dancer play 60's and 70's Rock, Blues, R and B, Funk, and originals. Come have some fun socializing and dancing!! Please join us at the Deadwood Community Center's comfortable setting and floating wooden dance floor, with a dinner for sale (which benefits the Community Center facility) starting at 6:30 and the music starting at 7:30. This is a family friendly event, all are welcome. A sliding scale donation at the door is appreciated for the band. The Community Center is located 4.3 miles up Deadwood Creek Road, (off HWY 36 just past the Deadwood Store, Bar, and Grill). Call 541-964-5031 for more information. We love to keep the music flowing out in the hinterlands.....come join us!!!

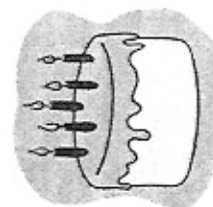

Copies of the Deadwood Ditto may be picked up at the Deadwood Post Office & Deadwood Country Market

Any items in the Ditto that do not state a submittor, excluding ads, is a submission of the editor....Deb

Special Event at 3rd Saturday on April 19:

Freddie Goes over the Hill - 60th Birthday Celebration

Hope you will join in the fun with cake, music and good times to celebrate Fred Mentzer's 60th birthday. Bring over-the-hill gifts if inspired!

Maryanne

ZIGGY
