IT'S TIME TO BE A SQUEEKY WHEEL

Lane County is updating its transportation plan. The Transportation Plan is a kind of wish list for the next 20 years. If you know a spot where a road or bridge needs repairs or could be made safer for cars, bikes or pedestrians, let our planners know using the link below. You can comment about anything related to transportation, such as bus services.

Since the population of Deadwood is small, lots of us need to speak out to get noticed.

Several people from in and near Deadwood (including me) have already identified areas for improvement so when you go to the map to comment, be sure to read the Deadwood area comments and "heart" all the ones you think are good ideas.

I asked for the return of dust control on unpaved roads. I'd love to have more people agree with my comment or say something similar linked to a different section of gravel road. Mine has a typo which I can't change so don't ding me for that. (Be sure to check for perfection before you submit your comment. I wish I had.)

To comment, go to www.lanecountytsp.org and click on "interactive comment map" along the left hand side of the page.

I am strongly committed to strengthening our community, helping those less fortunate, and protecting our precious environment. Over the last few years I have served the community by chairing the committee that revised the DCS by-laws, helping create a group to provide microloans for people wanting to start a small business, sharing our produce with UDIG, and leading the protest that forced an absentee landowner to forego aerial spraying in middle Deadwood. These days I am especially interested in emergency preparedness. I would be honored to serve on the DCS board.

I am writing to encourage you all to let your weeds grow - We are having a global Bee die off and Dandelion clover, wild tam^{plant} cucumbers, nettle, blackberry etc, have bees gathering their food and pollinating all the plants so they continue growing. If you doubt this I invite you to visit my property next Spring so you can hear the roar of bees - I know you probably thinks my place is a weedy mess - BUT - to the huge variety of BEEES I have it is a Buffet of goodness -

BIZARRO

The Promise

How important is it to know the truth? How would each of us value knowing the truth about something which is very important to us? One of the truly huge landmarks in my faith journey happened when I asked for truth. I was a seeker and was reading two "spiritual" books ("Urantia" & "I Am"). One day I prayed the following prayer: "Whoever you are God, whatever you are, if you are, I would like to know if these two books I am reading are true." I didn't get on my knees, and I didn't really have any reverence or any thees or thous; only an earnest & heartfelt desire to know the truth. Two weeks later while I was reading the "Urantia" book, a clear, distinct, and completely separate but internal Voice spoke to me: "The sentence you just read is not true." I looked, and my soul could attest to it.....yes, it was not true. Approximately two weeks later a very similar experience occurred while reading the "I Am" book. I was blown away! I was changed, forever, I believe! Ultimately three things came to my understanding: a) There's something out there that is alive & conscious. b) Whatever "It" is, It is aware of little me. c) and It's not aware of me like I would be of a spider just before I step on it, no, whatever It is, It is benevolent; It cared for me enough to answer my heartfelt request.

I had no awareness at that time that I had "stumbled onto" one of God's many Promises regarding seeking and finding Him and the Truth. Here's one of many: "Ask and it will be given to you, seek and you will find, knock and it will be opened to you. For everyone who asks receives, and he who seeks finds, and to him who knocks it will be opened."--- Jesus (Mathew 7:7-8) An important part of His Promises in seeking the truth is that when we have truth revealed, we need to be willing to change our beliefs, and seek more truth. This is an important part of earnestly desiring the truth, that when God gives truth to us, that we will respond by altering our course, and seeking more. May God Bless your earnest asking and seeking the truth!

We are ultimately grateful to you, our amazing Deadwood Community, for showing up to help us fight our shop fire. Without you, we know the outcome could have been so much worse. Our hearts are so full of love and gratitude for our caring D'wood neighbors. You make us know that true wealth is measured by the folks you can count on. Biggest love to you and blessings every step.
