*Abraham Lincoln to
Colonel Wm. Elkins
November 21, 1864.*

*"I see in the... future a crisis
approaching that unnerves me
and causes me to tremble for the
safety of my country... Corporations
have been enthroned and an era
of corruption in high places will
follow and the money power of
the country will endeavor to prolong
its reign by working upon the
prejudices of the people until all
the wealth is aggregated in a few
hands and the republic is destroyed."*

Early morning after seeing Kate et al presentation of Standing Rock slides and vids.... Not being able to sleep with this on my mind, I got up and began to get my thoughts down in some form: I'm convinced of the accuracy of what I say here. In the first place I fear there is no limit to what our government, for lack of a better term, will do to perpetuate its agenda. THAT'S WHERE WE'RE CAUGHT BY SURPRISE. "THEY'LL NEVER DO THAT" IS A CHERISHED THOUGHT DESIGNED TO PACIFY OUR FEARS. FALSE!!! Proven out at his point and becoming alarmingly more obvious as the array of atrocities worldwide continues to escalate. There will be no respect for any moral or religious values held by any segment of the population of any country or culture, not even our own nation. We will be compartmentalized and played off against each other. Let's bring that into present tense. The Native Americans at standing rock have set an example of unification but the same old scenario of lines facing each other is the paradigm. This is a no win situation and allows physical violence to have its day once again. Force is and always has been the deciding factor in a situation where it can be brought to play. Where there are no constraints of morality involved the outcome is predictable and heavily weighted. Those few individuals who, by their moral obligation, have turned in their guns, are simply another form of victory for the opposition. In hopes that their action will inspire others, they have made an example of themselves. Will the hundredth monkey theory play out or will it simply make monkeys of the 99? Our opponents firmly believe in their stance as we do in ours. Why are we convinced we can change that? Control of public media is a powerful tool whether it's overt propaganda or blocking of live feeds from the field. The "average" citizen will find it difficult to sort out the truth, which in itself is only a relative term. Something's either truth or lie as thinking makes it so...to paraphrase. History is replete with examples where governments have created false incidents to manipulate public opinion to suit their own ends, frequently resulting in extreme loss of human life, but always at a profit to the perpetrators. Many famous quotes come to mind but most saying that war has always been a scam; even the most righteous ones. As we just passed the anniversary of one such event, so we approach the anniversary of another. Take your pick! As we back into the future, looking ever behind us for guidance, what do we see but a paradigm of deceit and treachery. How can we progress in a moral and humane way is the question with no easy answer. Each person's view of reality is uniquely theirs and questioning its authenticity is shaky ground. Yet we must do that in order to glimpse another's view. Our world is a complex of views each as valid as the next. We inevitably try to impose our view as the right one. It's the only one we know. Look around you...everything you see with the exception of the NATURAL surroundings was once an idea in someone's mind. Thus it should be clear that, by and large, we do create our own reality. This is the god that many worship and has made it particularly hard to appreciate the position of the Native American in this respect....I'd say NO RESPECT! james

Requests are now being taken for the 2017 Native Plant Distribution! The NPD provides free riparian plants to landowners on lakes, creeks and rivers in the Siuslaw Watershed. Each year, the Siuslaw Watershed Council distributes over 10,000 native plants and trees for planting along lake and stream banks throughout the basin. Native plants help improve our water quality by stabilizing banks, filtering pollution from runoff, and providing shade to keep water temperatures cool for aquatic species.

The maximum request per landowner is 300 plants. Brochures are being mailed out this week. For a brochure of plants available, click here:

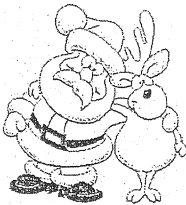

http://www.siuslaw.org/.../2007/11/2017NPDBrochure_draft_fina...

To place a request or for technical assistance, please contact Kyle Terry at the Siuslaw Watershed Council: email nativeplants@siuslaw.org or call 541-268-3044.

The Deadwood MicroLoan Committee is pleased to announce that the last loan has been paid back timely with a little extra, and will again be accepting applications for more loans up to \$500. We on this committee are very pleased to be able to help our community by offering a little help for someone to get a start in this way that they might not otherwise be able to get. For more information call or contact Mel at -3223 or Keith at -3502.

Holiday Greetings to the Mapleton/Swisshome/Deadwood communities.

This is a call out for community members to enroll in a free Master Recycler Class to be held in Florence at LCC.

The Lane County Master Recyclers and Lane County Waste Management Division thank you in advance for your consideration.

PRESS RELEASE

The Siuslaw Regional Aquatic Center announces a current Gofundme drive up and running for donations to the efforts to repair and reopen the Mapleton Pool. To visit the site, search GOFUNDME on your web browser. Enter the community of Mapleton, Oregon. You will immediately see the Siuslaw Regional Aquatic Center fund set up to receive up to the \$500,000 we need directly into our Banner Bank account. Your donation is tax deductible as the SRAC is a 501-C3 nonprofit.

Large donations can also be directly deposited in our capital fund account set up only to be used once we raise enough funds. To do this, mail donations to SRAC PO Box 291, Mapleton, OR 97453. Call Board members at 541-268-6943 or 541-268-6945 if you have questions.
