

On returning to the Junction City area I rejoined the family business, and got married. I have always felt a connection with this community. I currently serve on the Southern Willamette Valley Prison advisory Committee, and am active in my parish St. Helen Catholic Church. I have felt compelled to serve a community that has been good to me and my family. I have no prior experience in the energy industry, but would like to see rates competitive and just for all members. I will make myself available, to listen to the needs of the employees and the members of the Co-Op and do my best to learn and to serve.

### About Me

I was born and raised in Junction City. I have been married for 16 years am a father to six children three boys and three girls and work in the family business. I attended Junction City schools until High School when I attended Marist Catholic High, where I acquired a taste for community service. I learned the value of hard work at a young age. I began "mowing yards" at age eight with the help of my father. By ten I had bought my first trailer and my sisters were wrangled into service as my drivers. As a teenager, summer jobs on a farm and a local nursery filled my time, while also serving for a short time on the Junction City volunteer fire department. At age eighteen I left the family business to pursue life. I learned to drill rock in hard rock quarries and spent a fun year with an outfitter in Eastern Oregon.

### Why vote for me?

- I am a good listener.
- I am an independent thinker.
- I live here.
- I care about the Co-op.
- I want to give back to my community.

**"Your Needs  
Are My Needs"**

### Goals:

1. Reduce rates through cost savings.
2. Increase transparency.
3. Listen to members.
4. Maintain fair and competitive wages.
5. Recover approx. \$1,200,000 from State Of Oregon and Grain Millers for power contracted for them, NOW BEING PAID BY YOU!
6. Achieve strategic goals set in 2012 Strategic plan.

### Questions to Consider?

1. Why are Blachly Lane's rates the highest of any provider in our area?
2. Why did the Board and Manager propose earlier not to pay capital credits in 2013?
3. Do you feel you are adequately informed of YOUR Co-op's activities?
4. Are you satisfied with your facilities charge?
5. Are you in favor of management's recommendation to pay for a new strategic plan this year after paying for and adopting one last year? (2012)
